

Agenda

- The uniqueness of the Olympic Games
- Athletes: at the heart of the Olympic Movement
- Olympism in action: keep Olympism alive 365 days a year
- The IOC's role: unity in diversity
- *IOC structure and organisation*

IOC structure and organisation: key themes

- **IOC membership: recruitment, role and age limit**
- IOC Session
- Commissions: scope and role

IOC membership

- Extend the age limit to 75 or depending on function.
- Consider that the success of the IOC depends on members with a wide range of abilities.
- Note that the Executive Board decided to change the regulations of the Nominations Commission to have more transparency on the candidatures for IOC membership.
- Consider the election of individual members outside the present nationality rules.

IOC structure and organisation: key themes

- IOC membership: recruitment, role and age limit
- **IOC Session**
- Commissions: scope and role

The IOC Session should become more interactive

- Concentrate on report highlights rather than giving an exhaustive presentation.
- Place a strategic topic on the agenda, invite an outside expert to deliver a keynote speech and organise a follow-up discussion with the Session.

IOC structure and organisation: key themes

- IOC membership: recruitment, role and age limit
- IOC Session
- **Commissions: scope and role**

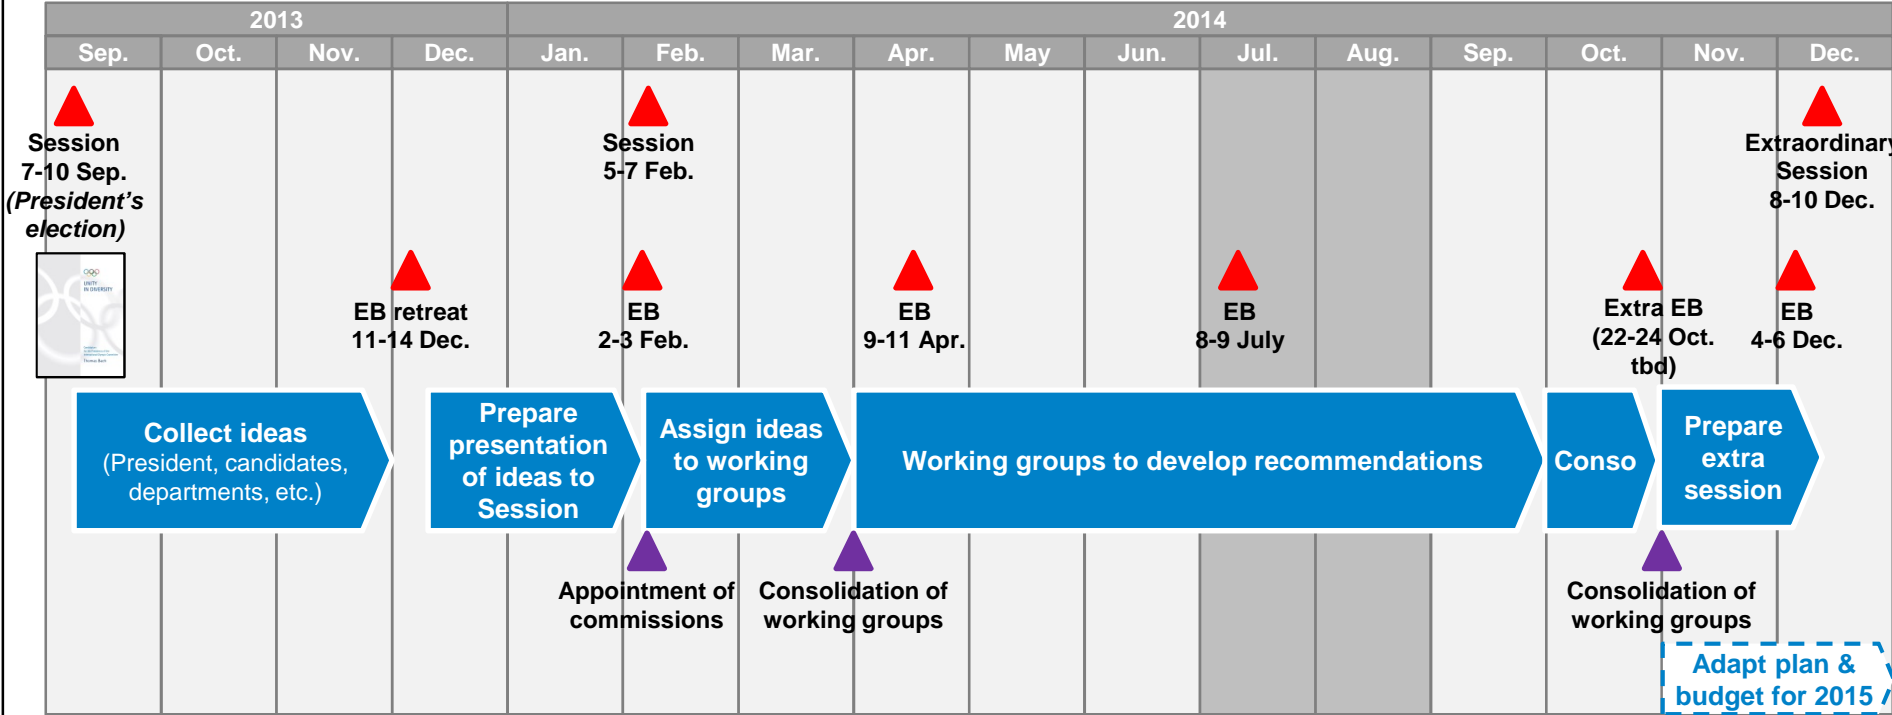

The role and influence of the commissions should be strengthened

- Acknowledge the importance of the permanent commissions and ad hoc working groups – established by the President – in advising the Session, the Executive Board and the President.
- The President to review the constitution and terms of reference of the commissions.
- The Executive Board to discuss future plans based on mid-term priorities and proposals from the various commissions and working groups before the budget is approved by the Finance Commission.

“Olympic agenda 2020” next steps

**To contribute further to the Olympic Agenda 2020
until 15 April**
