YOUNGEST KNOWN MEDALLIST

On 26 August 1900, the Dutch coxed pairs rowing team needed a cox. A young French boy was chosen. After the tight victory of the Dutch team, the young French boy took part in the medal ceremony and was photographed. Despite years of research by many historians, we still do not know his name or his age. Judging by the photo, this young boy is between 7 and 12. If he is nearer 12, the youngest

medallist is thus the Greek gymnast Dimitrios LOUNDRAS who, when he finished third in the team parallels bars at the 1896 Olympic Games, was 10 years and 218 days old. Over three decades later, Italian Luigina GIAVOTTI won the silver medal in the team gymnastics event in 1928. She was 11 years and 302 days old.
