SOCHI 2014 OLYMPIC WINTER GAMES, 7-23 FEBRUARY 2014

A. INTRODUCTION

The IOC governs the Olympic Movement and owns the rights to the Olympic Games including, without limitation, the right to broadcast and exhibit the Olympic Games. These News Access Rules apply to the use for news purposes of moving images of the XXII Olympic Winter Games to be celebrated in 2014 in Sochi, Russia (the “Games”) by non-rights holding broadcast organizations (“Non-Rights Holders”). The broadcast of the Games is subject to and protected by full IOC copyright.

Capitalised terms used in these News Access Rules have the meaning set out in the Definitions section at the end of these News Access Rules.

Only those organizations that have been granted the right by the IOC to broadcast the Olympic Games for a particular territory (“Rights Holder”) may do so. No other organization may broadcast sound or moving images of any Olympic event, including training venues, sporting action, the Opening Ceremony, the Closing Ceremony and victory ceremonies, mixed zones, interviews or other activities which occur at Olympic Venues, including the Olympic Park Common Domain, Medals Plaza, Olympic villages and Village Square, except as permitted by these News Access Rules, as set out below.

These News Access Rules apply to Television and radio broadcasting. It is understood that any other form of broadcasting of Olympic Material of the Games by Non-Rights Holders including all E Accredited Media, whether via Internet, mobile platforms or otherwise, is strictly prohibited and is a breach of these News Access Rules.

These News Access Rules are subject to applicable national laws and regulations. In appropriate cases, the IOC may agree with Rights Holders in their particular territories to issue supplemental news access rules for such territories.

6. **Courtesy Credit/Rights Holder “Bug”:** Each broadcast of Olympic Material in accordance with these News Access Rules must give an on-screen credit to the local Rights Holder by leaving on the Rights Holders watermark for the duration of the clip or, should the Olympic Material not be sourced through the local Rights Holder, by adding a super video credit to the Rights Holder for the duration of the clip to read as follows:

   “Courtesy (Name of Rights Holder)”

7. Olympic Material must not be broadcast on interactive services such as 'News Active' or 'Sports Active', which would allow the viewer to make a viewing choice within a channel and to thereby view Olympic Material at times and programs other than when broadcast as part of a News Program as set out in Clause 1 above.

8. Should any fair dealing or similar provisions contained in any applicable national law permit the use by Non-Rights Holders of any footage of previous Olympic Games, then such footage will be included in the total of six minutes per day.

platform must not be accessible to persons outside the specific territory. Any broadcast of such Olympic Material on the Internet or mobile platform must be restricted to the territory in which the fair dealing or similar provision is applied - i.e. it must be Geoblocked. Any broadcast on the Internet or mobile platform contrary to the above will breach the IOC’s rights and the rights of Rights Holders in other territories, and as such is expressly prohibited. All other provisions of these News Access Rules would still apply.

15. OBS will establish the Olympic Television News Agency (“ONA”) for the purpose of providing news access to world News Agencies and other Non-Rights Holders in accordance with these News Access Rules and the policies of the IOC.
