# Figure Skating in Harlem (FSH)

**Using sport to provide opportunity, education, and empowerment for girls in New York City's most underserved communities**

The aim of the programme is to transform young lives and help girls from Harlem grow in confidence, leadership, and academic achievement through figure skating.

**Summary**

Figure Skating in Harem (FSH) provides girls with innovative year-round health, education and fitness programmes that promote academic success, physical health, and emotional well-being. Participating students, girls aged between 6 and 18, spend up to 480 hours annually engaged in comprehensive figure skating and academic programmes, which include ICE: I Can Excel and Summer Dreams. The programme takes place throughout the duration of the school year and includes two to three afternoons per week of ice skating instruction, life skills classes, homework assistance and academic enrichment classes. Each student is provided with ice time, quality skating instruction, and proper equipment (skates, blade covers and bags) and attire (warm-up suits, sweatshirts, and show costumes). The programme addresses issues of safety, social support, classroom engagement, and time management. It actively educates underprivileged girls about their full range of educational and career opportunities by giving them information about non-traditional jobs, financial aid, and scholarship programmes and provides them with mentorship opportunities with successful female professionals.

**Keys to success**

**An extensive curriculum**

The FSH’s comprehensive Leading Edge Academic and Character Education Curriculum is focused on helping girls acquire foundational academic skills to prepare them for their future. Delivered by certified teachers and social workers, the programme is continually evolving to meet the students’ needs. Subjects range from nutrition, financial literacy, communications and public speaking, to study skills, and skating history as well as social and emotional skills development. FSH also offers career workshops, leadership and mentoring opportunities, and cultural field trips designed to provide meaningful experiences and to deepen commitment to education and success.

**A three-pillar programme**

The programme is comprised of three pillars: skating skills, academic achievement and social and emotional well-being. All activities are designed to help participants improve in each of the areas and each student’s progress is monitored on a continuous basis.
Sport for All objectives

Promote sport and physical activity
The programme uses figure skating as a catalyst for transforming lives and providing participants with a sense of purpose and belonging. Promotion of the practice sport is one of the key pillars of the project, where participating students are provided with training two to three times a week during the school year.

Improve public health and well-being
At FSH, students are engaged in structured physical activities and wellness classes to improve their fitness and instil healthy habits they will take with them throughout their lives, therefore increasing the knowledge and awareness of health and wellbeing among girls and their families who participate in the programme.

Provide equal access to sport
The main reason behind the creation of FSH is to open up the sport of skating to young women in urban areas, who would otherwise not have the opportunity to learn the discipline and life skills gained from participation.

How is the programme communicated?

The programme is promoted on a dedicated website, which receives an average 4,500 views/month. Additionally, regular electronic flyers and newsletters are sent to the organisation’s database of 3,500 members. The two premier community events, the Soul on Ice Winter Skating Party and Annual Student Ice Show are publicised through press releases one month before the event and through the website, e-communications and social media channels. The Skating with the Stars benefit gala, which attracts a wide variety of corporate sponsors and major individual donors, is promoted through press releases and formal invitations. A marketing campaign leading up to the gala includes social media postings (Facebook and Twitter), phone calls, emails and letters to the network of current and potential supporters.

How is the programme evaluated?

Each student’s progress is evaluated in each of the key areas (skating skills, academic achievement, social and emotional well-being) individually through pre- and post-season assessments, which include interviews, observation, and questionnaires. These tools enable an understanding of how each girl is progressing annually, as well as longitudinally from the time of their initial enrollment.

“FSH is where we, as girls, can grow in confidence and become powerful and outspoken young women. It is a place where we feel safe, supported, and where we learn to use our voices.”

Sanaa Roper – Participant (age 12)
Join the sporting society!
Globally, 1 in 4 adults is not active enough and more than 80% of the world’s adolescent population is insufficiently physically active (World Health Organization). Let’s reverse the trend and get moving.

Promote sport and physical activity
Recent changes in leisure and work practices, diet and a host of other trends has led to an increasingly sedentary lifestyle amongst the world’s population. Sport for all programmes aim to promote sport and physical activity to mitigate the negative effects associated with these developments.

Improve public health and well-being
Sport and physical activity plays an important role in making societies healthier, happier and safer into the future. Successful sport for all projects help to stimulate these common benefits across entire communities.

Support active societies
Active societies involve many stakeholders such as parents, coaches, schools, local clubs, sports organisations, event organisers and grassroots activities, to name but a few. They can all be hugely influential in promoting healthier lifestyles within a community. Programmes that support and reinforce their efforts are vital for the encouragement and promotion of active societies around the world.

Provide equal access to sport
Every member within a community should have equal opportunity to live an active and healthy lifestyle. Effective grassroots programmes place a heavy emphasis on ensuring that all of their participants can enjoy this opportunity regardless of physical condition, race, gender, social conditions, geographical location or otherwise.

Foster Olympic legacy
The Olympic Games provide a source of inspiration and a vibrant expression of the Olympic values of excellence, friendship and respect. This unique power can energise communities to develop projects enabling and inspiring people to become and stay physically active into the future.

Become a key player in your community
A useful platform has been designed for organisations across the Olympic Movement that are managing Sport for All programmes, providing them with the knowledge, understanding and tools needed to improve existing programmes worldwide, as well as to create new ones.
